PROFESSIONAL SUMMARY

MCA student with a passion for technology and a genuine curiosity for how things work. I bring strong communication skills, a client-first mindset, and the ability to adapt quickly in fast-paced environments. I don't just learn; I unlearn and relearn. I don't wait to be ready; I get ready by doing. Looking for a role where I can contribute meaningfully from day one while continuing to grow.

SKILLS

Web Technologies: HTML, CSS, JavaScript

Web Development & Design Tools: Figma, Wix, WordPress

Video, Audio & Motion Editing: CapCut, InShot, Adobe Podcast, ElevenLabs

Graphic & Multimedia Design: Adobe Photoshop, Adobe Illustrator, Canva

Generative AI & Emerging Tools: Nano Banana Pro

PROFESSIONAL EXPERIENCE

Data Science Intern | [Codec Technologies](#)

May 2026 – Aug 2026

- Gained hands-on experience in data cleaning, preprocessing, exploratory data analysis (EDA), and machine learning using Python and industry-standard data science libraries.
- Built and implemented a data-driven project by applying data preprocessing, feature engineering, model development, and performance evaluation techniques to real-world datasets.
- Collaborated with developers on a capstone data science project, strengthening skills in data analysis, machine learning workflows, problem-solving, and project execution.

UI/UX Designer Intern | [Bloortech](#)

May 2025 – Aug 2025

- Architected end-to-end UI/UX designs for company websites and multi-page web applications using Figma and Wix, creating custom branding, logos, and high-fidelity prototypes that streamlined user flows and elevated brand identity.
- Designed intuitive, conversational UI/UX frameworks for an AI chatbot, mapping complex user journeys and wireframes in Figma to simplify interactions and improve data retrieval experiences.
- Integrated frontend UI/UX design with backend services, optimizing application workflow and accelerating project delivery timelines by 35%.

PROJECTS

Customer Transaction Data Analytics | [Python](#) • [SQL](#) • [PostgreSQL](#)

- Analyzed 1,000+ customer transaction records using PostgreSQL, uncovering a 2.1× revenue gap between male and female customer segments through advanced SQL aggregation and filtering queries.
- Built an end-to-end analytics pipeline using Python and SQL to identify high-value discount customers whose spending exceeded average purchase thresholds, enabling data-driven business decision-making.
- Delivered a business-ready analytics report following a corporate-style data-to-decision workflow, covering data extraction, segmentation analysis, and insight generation structured for real-world stakeholder presentation.

Kota Driving School — Business Website | [HTML](#) • [CSS](#) • [JavaScript](#) • [SEO](#)

- Designed and developed a fully responsive business website kotadrivingschool.in from scratch using HTML5, CSS3, and JavaScript, delivering a professional, mobile-first UI with smooth navigation and fast page load times.
- Implemented on-page SEO best practices, including semantic HTML structure, meta tags, keyword optimization, and page speed improvements, improving local search visibility for the business.
- Delivered a complete, production-deployed website independently, handling design, development, content, and SEO end-to-end as a real-world client project.

EDUCATION

Poornima University

CGPA: 8.88

Master of Computer Applications (AI & Data Science)

2025 – 2027

Banasthali Vidyapith

CGPA: 8.10

Bachelor of Computer Applications

2022 – 2025

ACHIEVEMENTS & CERTIFICATIONS

- 3rd Place — Let's Hack It Hackathon, Google Developer Groups India × Hack2Skill | January 2026
